

Learn to Design Masonry More Effectively with RISA Software

RISA Technologies is proud to announce a webinar that will highlight the new Masonry Wall features available in RISA software products. This session will introduce various design options using masonry within the RISA. Design a single wall or an entire building. This demonstration will illustrate how to use these features and will show you how to quickly get results.

Date

March 24, 2010

Time

1 p.m. PST

Location

www.risa.com/masonrywebinar

Continuing Education

Many states require continuous education for renewal of your P.E. license. This webinar provides 1 PDH unit.

Cost

The fee for the webinar is \$25.

About RISA Technologies

RISA Technologies has been developing cutting-edge structural design and optimization software since 1987. With a well-trained team of engineers and software developers, we are working to meet the needs of our growing client base by implementing new design features and expanding the suite of software tools that we offer. Our products are used by 24 of the top 25 U.S. design firms and in more than 70 countries for towers, skyscrapers, airports, stadiums, petrochemical facilities, bridges, roller coasters and everything in between.
